- D. In combination with any other use provided for in this section, to increase the City's tax base to ensure the City's long-term ability to

provide adequate services for its residents while lessening the reliance on residential property tax.

- E. To retain local jobs where job loss is specific and demonstrable, increase the local job base and create high quality job growth, and provide diversity in the job base.
- F. To enhance economic growth and diversity and encourage additional unsubsidized private development in the area, either directly, or through secondary "spin-off" development.
- G. To offset increased redevelopment costs, over and above those costs that a developer would incur in normal development, and to encourage redevelopment and revitalization of the City or specific areas within the City.

- A. The assistance must be provided within applicable state legislative restrictions, State Auditor interpretations, debt limit guidelines, and other appropriate financial and legal requirements and policies.
- B. The project must meet at least one of the uses outlined in Section 3 above.
- C. The project must be in accord with the City's Comprehensive Plan and Zoning Ordinances.

- H. The applicant must demonstrate evidence of required equity and other project financing sources. The applicant should reduce its level of needed business assistance funding to the lowest possible level and least amount of time by maximizing the use of private debt and equity financing first, and then using other funding sources or income producing vehicles that can be structured into the project's financing, before using additional business assistance funding.

6. BUSINESS ASSISTANCE PROJECT EVALUATION CRITERIA

The City or EDA will evaluate all projects on the following criteria for comparison with other proposed business assistance projects reviewed by the City and the EDA, and for comparison with other subsidy standards (where appropriate). Changes in local markets, construction costs, and interest rates may cause changes in the amounts of business assistance subsidies that a given project may require at any given time.

While some criteria, by their very nature, must remain subjective, the City and EDA have established possible "benchmark" criteria for review purposes. The fact that a given proposal meets one or more "benchmark" criteria does not mean that the project is entitled to funding under this policy, but rather that the City or EDA is in a position to proceed with evaluations of (and comparisons between) various business assistance proposals, using uniform standards whenever possible.

- 6.03** All other things being equal and to the extent legally possible, the City will give preferential treatment for business subsidies to businesses that

engage in responsible labor relations defined as neutrality on union organizing.

6.04 The City or EDA will use the following evaluation criteria:

- A. All proposals should optimize a site's private development potential.
- B. All proposals should create the highest feasible number of jobs on the site given the project's nature and other goals.
- C. All proposals must meet all applicable business assistance criteria established by the City or EDA.
- D. All proposals should create the highest possible ratio of property taxes paid before and after redevelopment after taking into consideration all of the project's goals.
- E. Proposals should normally not be used to support speculative industrial, commercial, and office projects.
- F. The City or EDA will not normally provide business assistance to a project that involves an excessive land and/or property price.
- G. The City or EDA will not normally use business assistance for projects that would generate significant environmental or social problems in the opinion of the local, state, or federal governments.

7. APPLICATION PROCESS AND FEES

All applicants for business assistance must fill out and submit a Pre-application for Business Assistance form to the City or EDA. Based upon the Pre-application submitted, the City or EDA may request the applicant to fill out and submit a formal Business Assistance Application.

All applications must include an application fee as established by the City or EDA. The current established fee for a full application is \$100. The City or EDA may seek reimbursement for an amount negotiated in the Business Subsidy Agreement for any additional costs and expenses incurred in processing the application.

8. BUSINESS ASSISTANCE AWARD

The City or EDA shall consider, evaluate and take action regarding a completed Business Subsidy Application within sixty (60) days after receiving a properly completed Business Assistance Application. The City or EDA will hold a public hearing before granting or denying the business assistance. The City or EDA will publish notice of the public hearing at least ten (10) days before the hearing.
